April 2016 Open Season

Ryckman Creek Gas Storage Facility

Uinta Co., Wyoming

RYCKMAN CREEK RESOURCES, LLC OPEN SEASON NOTICE

Response Due By April 20, 2016, at 5:00 PM CST

April 6, 2016

Dear Potential Customer:

Ryckman Creek Resources, LLC, a subsidiary of Peregrine Midstream Partners, LLC, is conducting a non-binding Open Season to determine the interest of prospective customers in contracting for up to 11 BCF of firm, high-deliverability, multi-cycle (HDMC) working gas storage capacity in Uinta County, Wyoming, near the Opal Hub. Ryckman Creek has converted a partially-depleted oil and gas reservoir into a gas storage facility with 35 BCF of working gas and a maximum daily withdrawal rate of 360,000 DTH/d.

The Ryckman Creek Facility offers tailored gas storage services to meet the needs of a wide range of potential gas storage customers including Electric Utilities, IPP, LDC, Gas Producers and Marketing entities doing business in the Rocky Mountain Region and throughout the Western U.S.

Ryckman Creek has developed this project near the town of Evanston, Wyoming and approximately twenty-five miles south of the Opal Hub. Ryckman Creek currently has interconnects with Questar Gas Pipeline, Kern River Transmission, Questar Overthrust Pipeline, Ruby Pipeline and Northwest Pipeline. The facility is also directly accessible through our Overthrust Pipeline Interconnect from REX Pipeline, Colorado Interstate Gas Pipeline, Wyoming Interstate Company Pipeline and Cheyenne Plains Pipeline.

By submitting the enclosed Bid Response Form, the party submitting the form is making a non-binding expression of interest. The bids received via the Non-Binding Bid Response Form will define a queue by which Ryckman Creek Resources, LLC will approach bidders to negotiate binding agreements. Our FERC tariff may be downloaded from our web site www.peregrinempllc.com or you may request us to send one to you.

Ryckman Creek Resources, LLC reserves the right, without qualification, to reject any and all bids and to modify this Open Season procedure in any way during this Open Season period. Bidders who submit bids do so without recourse against Ryckman Creek Resources, LLC and its affiliated companies.

RYCKMAN CREEK RESOURCES, LLC
NON-BINDING OPEN SEASON
Details and Project Description

	Withdrawals:	1,000,000 - 0	6,600	151
	Injections:	0 – 1,000,000	5,000	200
1.5 Turn Service:	Withdrawals:	1,000,000-100,001	15,000	60
		100,000-0	5,000	20
	Injections:	0 – 1,000,000	6,250	160
2.0 Turn Service:	Withdrawals:	1,000,000-70,001	13,500	69
		70,000-0	4,725	15
	Injections:	0 – 1,000,000	10,000	100

Commodity Rates: \$0.015/DTH on Injection and \$0.01/DTH on Withdrawal

Fuel Reimbursement: 2.0 % of Injected Quantity (in kind)

Bid Submission Info:

By submitting the enclosed Bid Response Form, the party submitting the form is making a non-binding expression of interest. The bids received via the Non-Binding Bid Response Form will define a queue by which Ryckman Creek Resources, LLC will approach bidders to negotiate binding Precedent Agreements.

Ryckman Creek Resources, LLC reserves the right, without qualification, to reject any and all bids and to modify this Open Season procedure in any way during this Open Season period. Bidders who submit bids do so without recourse against Ryckman Creek Resources, LLC and its affiliated companies.

RYCKMAN CREEK RESOURCES, LLC

NON-BINDING OPEN SEASON BID RESPONSE FORM FOR FIRM GAS STORAGE CAPACITY

Submitting Party Company Name: _____
 Contact Individual and Title: _____
 Telephone Number and Fax: _____
 E-Mail Address: _____

Max. Storage QTY (MSQ) requested: _____ DTH
Term Requested (years): _____ **Start Date:** _____
Monthly Reservation Charge: _____ \$/DTH of MSQ per month.

Max. Daily Injection Quantity (MDIQ) requested by Receipt point: _____ (Ratchets may apply)

Proposed Interconnects:
 Questar Pipeline _____ DTH/day
 Questar-Overthrust Pipeline _____ DTH/day
 Northwest Pipeline _____ DTH/day
 Ruby Pipeline _____ DTH/day

REX, CIG, WIC and Cheyenne Plains Pipeline have direct access through Overthrust Pipeline

Total Requested: _____ **DTH/day**

Max. Daily Withdrawal Quantity (MDWQ) requested by Delivery point: _____ (Ratchets may apply)

Proposed Interconnects:
 Questar Pipeline _____ DTH/day
 Questar-Overthrust _____ DTH/day
 Kern River Transmission _____ DTH/day
 Northwest Pipeline _____ DTH/day
 Ruby Pipeline _____ DTH/day

REX, CIG, WIC and Cheyenne Plains Pipeline have direct access through Overthrust Pipeline

Total Requested: _____ **DTH/day (Not to exceed 14,000 DTH/d/1,000,000 DTH of MSQ)**

Turns Requested: _____ (1 to 2 max.)

Commodity Rates: \$0.015/DTH of Injections and \$0.01/DTH of Withdrawals

Fuel Reimbursement: _____ 2.0 % of Injected volumes (in kind)

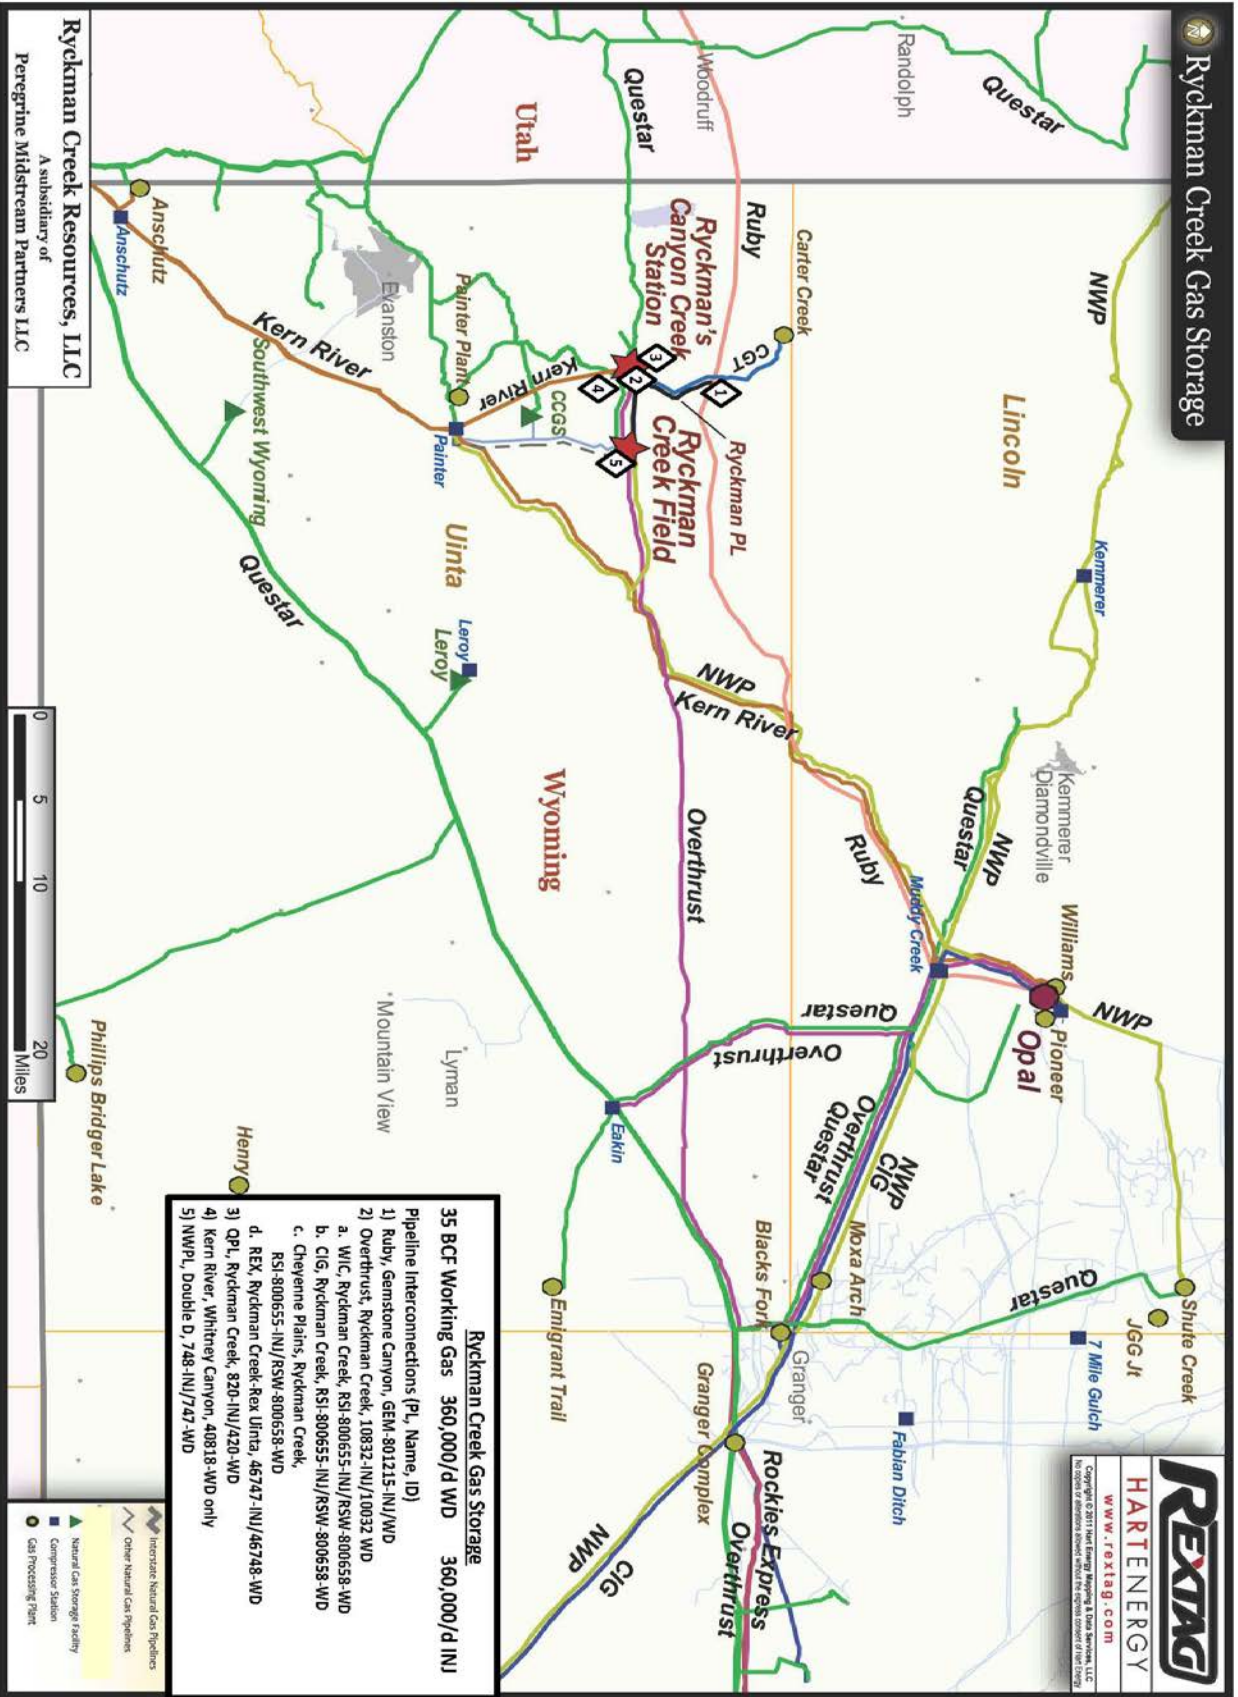

Additional Comments: _____
